

Erratum to Social status and social learning

A. Zakharov and O. Bondarenko

January 28, 2019

1. In the 8th session four subjects (3, 4, 11 and 12) instead of two subjects were included into one group. These observations were not used in the data analysis
2. Raw data for the 3rd session was lost
3. In sessions 1—5, 8 status measurement module was run after the risk lottery module and not before.
