

# Erratum to data

January 27, 2019

1. In the 8th session four subjects (3, 4, 11 and 12) instead of two subjects were included into one group. These observations were not used in the data analysis
2. Raw data for the 3rd session was lost
3. Data for variables x1n, x2n and payoff is absent for the 3rd session (subjects 323—324)
4. In sessions 1—5, 8 status measurement module was run after the risk lottery module and not before.
